香港主要幹線編號

Hong Kong Strategic Route Numbers

重組主要幹線編號已於二零零四年一月完成。

主要幹線簡圖顯示:

- 三條南北向的幹線(一、二及三號幹線)其編號次序是按所穿過的海底隧道的啟用日期先後而編訂 (依次為紅隧、東隧和西隧);
- 四條東西向的幹線(四、五、七及八號幹線),是按其地理位置由南至北來編號;
- 九號幹線是新界的環迴幹線。

By end of January 2004, the Rationalization of Strategic Route Numbers has been completed.

The Strategic Route Map shows:

- The three north-south routes (Routes 1, 2 and 3) pass through the three cross harbour tunnels, and their numbering sequence follows the opening of the three cross harbour tunnels (i.e. Cross Harbour Tunnel, Eastern Harbour Crossing and Western Harbour Crossing);
- The four east-west routes (Routes 4, 5, 7 and 8) have sequences starting from south to north;
- The circular Route 9 circumscribes the New Territories.

隧道收費亭新交通標誌及道路標記

New Autotoll Sign and Road Marking

運輸署設計了一套新的指示標誌及道路標記,讓駕駛者清晰地知道隧道自動收費亭所在,減少不必要的轉線,從而改善 道路安全。新的行車隧道自動收費線的交通安排,已於二零零三年八月開始,在獅子山隧道進行試驗。如效果良好,將 會推展至全港收費隧道。

The Transport Department has developed a new traffic sign and road marking arrangement to lead the motorists to the autotoll booths with an aim to avoid sudden lane changing and hence improve road safety. The new arrangement has been put on trial at the Lion Rock Tunnel since August 2003 and will be implemented to all autotoll booths if the result is satisfactory.

做個安全巴士乘客 Be a Safe Bus Passenger

於二零零三年共有568宗涉及巴士乘客在巴士車廂內或車廂內梯級跌倒的意外,因而導致 613名乘客受傷。因此市民在乘搭巴士時,應該處處留心,確保自己的安全。

In 2003, there were a total of 568 bus accidents involving passengers falling inside buses or on staircases on board resulting 613 passengers injured. Passengers should take every precaution to ensure their own safety on a moving bus.

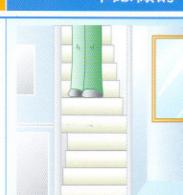

巴士乘客安全要點 **Bus Passenger Safety Tips**

應做的 Do's

不應做的 Don'ts

緊握扶手 Hold the handrails

站立在車廂上層或 梯級 Stand on the upper deck or the staircases

小心照顧小孩及長者 Take care of children and the elderly

站在上車或落車閘門的 黃線外 Stand beyond the yellow line near the bus entrance or exit

讓座與有需要人士 Give seat to those in need

車門正在開啟或關閉 時上車或落車 Aboard or alight while the door is opening/closing
