

## **RADIO API VOICEOVER SCRIPT**

Topic : Follow the rules Reduce traffic jams

Broadcast period: Sept 2015

### **Cantonese V/O script:**

MVO :                   城市嘅節奏急速，  
                          如果撞正塞車，唔只嘅時間，  
                          仲會加劇路邊空氣污染  
                          亦影響經濟  
                          同埋生活。  
                          想改善，大家就要一齊出力：  
                          司機要時刻遵守交通規則，  
                          唔好違例泊車，  
                          或者喺禁區上落客貨。  
                          大家盡量使用公共交通工具，  
                          多啲行路，少啲揸車。  
                          塞車得到改善，  
                          大家都得益。

人人守規則 處處少擠塞

(115 words)

### **Putonghua V/O script:**

MVO :                   城市節奏急速，  
                          如果堵車，不但浪費時間，  
                          還會加劇路邊的空氣污染，  
                          也影響經濟  
                          和生活。  
                          想要改善，大家就得同心協力：  
                          司機要時刻遵守交通規則，  
                          不要違法停車，  
                          或者在禁區起卸客貨。  
                          大家要盡量使用公共交通工具，  
                          多走路，少開車。  
                          堵車的情況改善了，

對大家都有好處。

人人守規則 處處少擁擠

(117 words)

**English V/O script:**

MVO :                    Our city moves at a fast pace,  
                              but when there's a traffic jam  
                              it costs us time and increases roadside air pollution.  
                              It also affects our economy  
                              and our daily life.  
                              To improve things we must work together  
                              Drivers should follow the traffic rules at all times,  
                              including refraining from parking illegally, or loading and  
                              unloading passengers or goods in restricted zones.  
                              Let's use public transport and  
                              walk instead of driving.  
                              If we reduce traffic jams,  
                              everyone benefits.
