English V/O script:

MVO : The road harbour crossings have implemented time-varying tolls. Tolls for private cars and motorcycles vary by time slots and are lower during off-peak hours. Between these time slots, tolls will gradually increase or decrease every two minutes. Taxis' tolls remain at \$25 all day, while other commercial vehicles have uniform tolls at \$50 all day. Check out the HKeMobility app or the toll displays at tunnels for real-time tolls.
