The ferry operators will advise passengers of temporary service adjustments through their websites and/or mobile applications, as well as by displaying notices at relevant piers and inside the vessels.

In addition, subject to the actual situation, temporary service adjustments for franchised and licensed ferry routes transiting through Victoria Harbour on 30 September and 3 October 2025 may be needed.

The TD and ferry operators will closely monitor the situation at sea and make corresponding adjustments to ferry services subject to the actual situation in order to minimize disruption to passengers. Ferry passengers, especially residents of outlying islands, are advised to plan their trips on both 30 September and 3 October 2025 in advance, allow sufficient travelling time, and pay attention to the latest updates regarding ferry services. If the event concludes earlier than scheduled, ferry operators will resume normal ferry services as soon as possible and may enhance services as needed to ease passenger flow. The TD and ferry operators will announce the latest service updates in a timely manner.

During the period of ferry service adjustments, any request for emergency assistance can be directed to the “999” emergency hotline. Relevant departments handling emergency situations, including the Government Flying Service, will provide emergency rescue services.

For details of the special traffic and public transport arrangements, members of the public may visit the TD's website ([www.td.gov.hk](http://www.td.gov.hk)); “HKeMobility” or passenger notices issued by the relevant public transport operators.
