(iii) Access to China Ferry Terminal

From 4.15 am to about 10.30 am on 30 November 2025, access to China Ferry Terminal will be diverted via Canton Road southbound.

(F) Removal of Illegally Parked Vehicles

Any vehicles found illegally parked within the areas of the special traffic arrangements specified above may be towed away by the Police without prior notice.

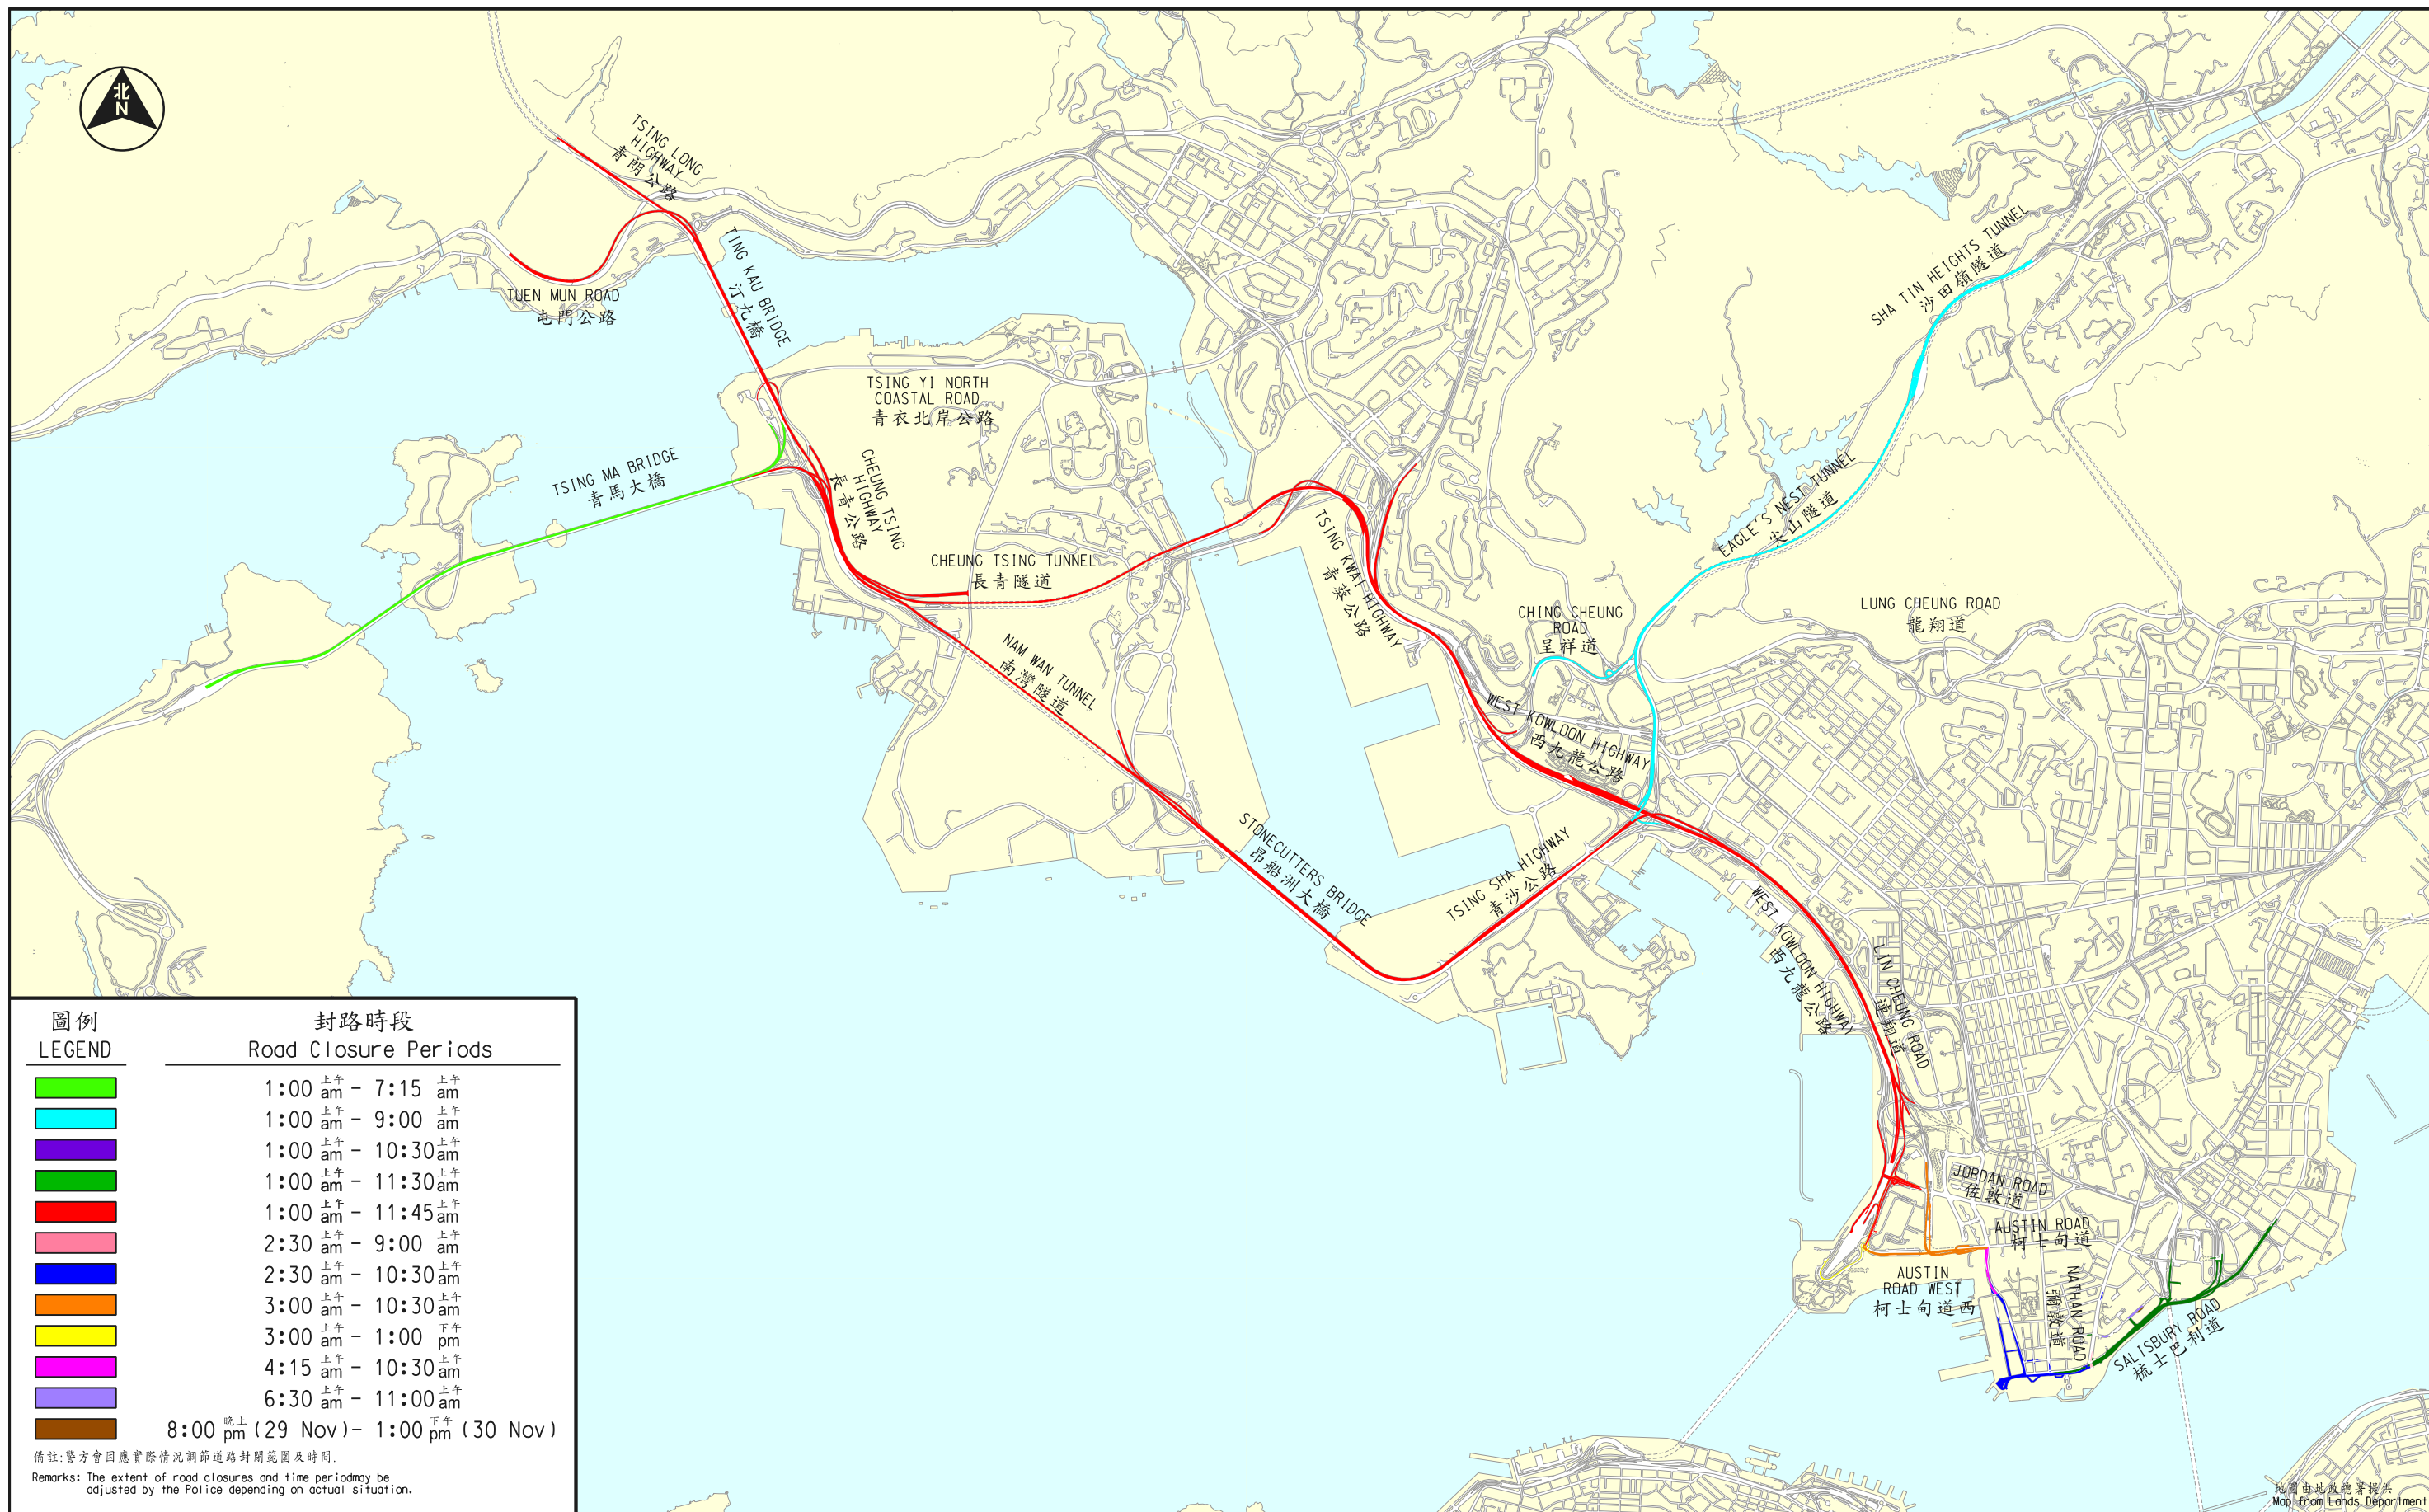

(G) Attention and Appeal

Members of the public should pay particular attention to the temporary road closures and public transport arrangements on that day. Due to extensive road closures, the TD anticipates that Kowloon-bound traffic on the Lantau Link, Tsim Sha Tsui bound on Ferry Street, Canton Road in the sections south of Jordan Road and in the vicinity of Harbour City will be more significantly congested when compared with normal Sundays. Motorists are advised to avoid driving to the affected areas, and in case of traffic congestion, motorists should exercise patience and drive with care, and follow the instructions of the Police on site.

On the event day, the Upper Deck of Lantau Link for Kowloon bound will be temporarily closed, journey time of bus services (including “A” and “E” routes) from Airport/North Lantau to Urban/New Territories Areas will be increased, then it may affect the stability of the bus services from Urban/New Territories Areas back to Airport/North Lantau. Passengers should allow more travelling time for their journey to / from Airport/North Lantau and Urban/New Territories. Those heading to the West Kowloon Cultural District, the Kowloon Station for Airport Express Line or boundary control points (including Hong Kong West Kowloon Station of the Guangzhou-Shenzhen-Hong Kong Express Rail Link and the China Ferry Terminal) are advised to plan their journey early to avoid any delay caused by road closures and traffic diversions. MTR and ferry services will not be affected by the event and passenger may consider to use non-road based public transport means, and pay attention to the arrangements of temporary route diversions and relocation of stops.

Appropriate traffic signs and traffic aids will be erected to guide motorists. Notices will be displayed by public transport operators to advise passengers of the above temporary traffic and transport arrangements. Actual road closure time will depend on actual finishing time of the event, and complete clearance for safe re-opening of roads to vehicular traffic. The TD and the Police will closely monitor the traffic situation. Other temporary road and traffic control measures, including adjusting the extent of road closure, and alteration or suspension of public transport services may be implemented by the Police at short notice depending on the actual traffic conditions. Members of the public are advised to stay alert to the latest traffic news through the media, or may browse the TD's website (www.td.gov.hk) or mobile application "HKeMobility" for information about the special traffic and transport information, or may also browse relevant public transport operators' website or mobile application for details of service changes.
