

Correct display of Taxi Driver Identity Plate

In accordance with regulation 51 of the Road Traffic (Public Service Vehicles) Regulations, when a taxi is standing or plying for hire, the driver shall display so as to be clearly visible to any passenger travelling in the taxi and legible to him-

(a) a table showing in English and in Chinese characters the scale of fares chargeable in respect of the use of the taxi;

(b) the registration mark of the vehicle; and

(c) a taxi driver identity plate in a holder.

Old version (in white colour) is invalid

A taxi driver identity plate must

(a) be of the size, design, form and construction, and displayed in the position in the taxi as specified by the Commissioner for Transport by notice in the Gazette;

(b) show in the case of a taxi driver identity plate, the captions “TAXI DRIVER IDENTITY PLATE” and “的士司機證”;

(c) show the driver's full name as shown in his identity card in English and, where appropriate, in Chinese; and

(d) bear the **driver's photograph taken not earlier than 12 months before the day of display.**

The taxi driver identity plate holder shall enable the taxi driver identity plate to be inserted in without obstructing the display of any information and logo shown on both sides of the taxi driver identity plate.

The taxi driver identity plate holder shall **show the registration mark of the taxi at its middle lower part facing the passenger**. The English letters and numbers of the registration mark of the taxi being displayed shall be in black colour and 10 mm in height. The display of the **registration mark of the taxi shall not be obstructed after insertion of the taxi driver identity plate**.

The overall size of the taxi driver identity plate holder together with the taxi driver identity plate inserted inside shall not exceed 120 mm in width and 100 mm in height.

The taxi driver identity plate holder shall be **mounted securely on the dashboard to the left of the taximeter**.
