

Rounding of figures

There may be a slight discrepancy between the sum of individual items and the total as shown in the tables owing to rounding.

Special Note

Population figures for 2007 to 2010 presented in this table may be different from earlier issues of this publication owing basically to the availability of up-to-date benchmark population data based on the results of the 2011 Population Census. Other statistics which in the process of their compilation involve the use of population figures have also been revised where appropriate.
