MVO:

Tai Lam Tunnel has implemented new tolls. Tolls for private cars and motor cycles vary by time slots on weekdays, with fixed tolls on general holidays. Taxis have a fixed toll of twenty eight dollars, while other commercial vehicles are charged forty three dollars. Check the HKeMobility app before your trip or toll displays at the tunnel for real-time tolls. With lower tolls for all vehicles, the new tolls benefit all by ensuring smooth tunnel flow and easing traffic on alternative routes.
