

Recall Detail

Ref No	10000434
Manufacturer	Toyota
Vehicle Class	Private Car
Model/Type	Prius
Dealer (phone no)	Crown Motors Limited (Tel: 2880 4988)
Subject	Brake pressure accumulator replacement
Progress	Running
Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	Due to the insufficient strength of components inside the brake pressure accumulator. There is a possibility that fatigue cracks could be developed in the bellows inside the accumulator due to the vibration of the metal plungers while driving. If this occurs, nitrogen gas in the accumulator could leak into the brake fluid and cause the brake pedal stroke to become longer, resulting in decreased braking force.
Remedial Action	Inspect or replace the brake pressure accumulator
Build Dates	March 2009 – October 2009
Launch Date	5 June 2013
Tentative Date of Recall Completion	December 2018
