

Recall Detail

Ref No	10000504
Manufacturer	ASTON MARTIN
Vehicle Class	PRIVATE CAR
Model/Type	DB 9, DBS , V8 Vantage, V8 Vantage S, Virage
Dealer (phone no)	MF Jebesen Automotive Limited (2234 0562)
Subject	Seat Heater Modification
Progress	Running
Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	In a vehicle with a failed electronic control module, if the ignition is switched on , there is a permanent power feed to the seat heater mat. This means that it is possible that a driver or passenger may be unable to turn the seat heater off, and that the seat heating components can become hot enough to cause a localised area of the seat to overheat and smoulder. This could cause injury to the driver or passenger.
Remedial Action	On vehicles that have seat heating, we will install an electronic "supervisor" module into each front seat heater that will monitor the correct operation of the seat heater. If the electronic module senses incorrect operation, the seat heater will be isolated and will not operate.
Build Dates	Manufactured from Jul 2006 - Nov 2014
Launch Date	25 November 2014
Tentative Date of Recall Completion	July 2015
