

Recall Detail

Ref No	10000612
Manufacturer	Toyota
Vehicle Class	Private Car
Model/Type	86
Dealer (phone no)	Crown Motors Limited (Tel: 2880 4988)
Subject	Replacement of Electric Power Steering ECU & wire harness
Progress	Running
Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	Under certain conditions, the electrical terminal of the wire harness connected to the Electric Power Steering (EPS) ECU may slide (with the normal sliding area) and rub against the tin-plated later of the connector due to the vibration which occurs during driving. This can result in debris caused by wear, which may accumulate and become oxidized. If the connector terminal sliding onto the oxidized accumulation gathered on/in the electrical insulator, it may result in electrical contact failure. The EPS ECU will then turn on the EPS warning light and the steering assist will be disabled.
Remedial Action	Replace the EPS ECU & wire harness
Build Dates	April 2012 - March 2015
Launch Date	2 August 2016
Tentative Date of Recall Completion	December 2018
