

Recall Detail

Ref No	10000687
Manufacturer	Scania
Vehicle Class	Truck
Model/Type	PGR Series
Dealer (phone no)	Scania (HK) Ltd. (2671 7001)
Subject	Advanced emergency braking, AEB, possible on trailer despite faulty or missing ABS functionality
Progress	Running
Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	Advanced emergency braking, AEB, must be downgraded so that it cannot request full braking force if the trailer connected to the vehicle either has an ABS system fault or does not have ABS. A fault has been discovered in the AEB software for vehicles without tachograph. On these vehicles, AEB is not downgraded, which can lead to the vehicle braking in such a way that the trailer becomes difficult to handle.
Remedial Action	Update the coordinator (COO) software.
Build Dates	2014 - 16
Launch Date	2017/04/13
Tentative Date of Recall Completion	2018/04/13
