Subject	Inspection/Replacement of Airbag Sensor

Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	It is related to an airbag system containing Pressure sensors and/or acceleration sensors (also known as "G sensors") which detect impact to the vehicle. There is a possibility that, due to two different manufacturing issues, the IC chips in affected Pressure sensors and G sensors have insulation layers that could peel over time, creating an open circuit in the IC chip. If this were to occur, the airbag warning light will illuminate and the side/curtain shield airbags and/or front airbags, may not deploy (Prius models do not have the G sensor issue and their front airbags are not affected).
Remedial Action	Inspect/replace the airbag sensor
