Affected Vehicle Identification Number (VIN)	List as below: (Last Seven Numbers)
Description of Defect, how it came to light, and possible consequences if ignored.	A wrong combination of software and hardware of the airbag control unit in your vehicle, sometimes while parking the vehicle it may lead to the activation of front airbags that is not required for occupant safety. This can be particularly the case, when switching off the ignition and simultaneously activating the parking brake. In case of such an activation, injury due to contact with the airbags is not completely impossible.
Remedial Action	Re-encoding airbag control unit
