Subject	Servicing backrest
Progress	Running
Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	On Audi A3 vehicles manufactured within a specific period, a rear seat backrest may be fitted on which the mounting for the head restraint is not correctly welded to the outer backrest frame for the rear seat. The support and protection functions of the head restraint may be restricted in the event of an accident. We expect that less than one percent of the vehicles will require a replacement backrest.
Remedial Action	The backrest on the rear seat bench must be checked on the affected vehicles and, if necessary, replaced.
