Affected Vehicle Identification Number (VIN)	List as below:
Description of Defect, how it came to light, and possible consequences if ignored.	On Audi A3 Sedan vehicles manufactured during a specific period, there may have been a discrepancy in the manufacturing process of the head restraint for the centre rear seat. As a result, a head restraint may be fitted in the centre position of the rear seat bench which cannot offer the full scope of its protective function in the event of an accident.
Remedial Action	The centre rear head restraint must be checked and, if necessary, replaced on the affected vehicles.
