Description of Defect, how it came to light, and possible consequences if ignored.	The routing of an electric line in the engine compartment might not correspond to the specifications. A 12 V positive line may be in contact with the cable lug of a ground point and chafe due to the vibrations that occur during driving. As a result, the line insulation could become damaged and a short circuit could occur between the 12 V positive line and ground.
Remedial Action	The line installation will be checked and replaced if necessary, as a precautionary measure in the affected vehicles.
