Description of Defect, how it came to light, and possible consequences if ignored.	In certain vehicles, we have found that water entry into the trunk and therefore the moisture may entry into the signal acquisition and actuation module unfortunately cannot be ruled out. As a consequence, a short circuit may cause various malfunctions (e.g. failure of the rear area exterior lighting). In addition, a thermal damage cannot be ruled out completely in this connection. In this case, the risk of accident or injury would be increased.
Remedial Action	As a precautionary measure, we will retrofit a cover to prevent the possible ingress of water in the affected vehicles.
