<b>Description of Defect, how it came to light, and possible consequences if ignored.</b>	As part of this constant monitoring, we have found that the fastening of the steering wheel height adjustment of certain vehicles might unfortunately not meet specifications. In case of a frontal crash, the fastening of the steering wheel height adjustment might not withstand the forces. As a result, increased occupant loads and therefore, an increased risk of injury cannot be ruled out for the driver.
<b>Remedial Action</b>	As a precautionary measure, we will replace the steering column tube on the affected vehicles.
<b>Build Dates</b>	01/03/2024 – 09/03/2024
<b>Launch Date</b>	22/11/2024
<b>Tentative Date of Recall Completion</b>	31/12/2025
