Affected Vehicle Identification Number (VIN)	Regarding the chassis number of vehicle affected by this campaign, please refer to EITHER (1) or (2): (1) If vehicle was bought from Zung Fu or ever repaired under warranty in Zung Fu Service Centre, please see below the list of chassis numbers of identified and remaining vehicles. (2) If vehicle was not bought from Zung Fu and never repaired under warranty in Zung Fu Service Centre, and the vehicle production date fell into that specified in "Build date", please contact Zung Fu Service Centres at above mentioned telephone numbers, or Customer Service hotline (Tel: 2504 6140) to clarify whether your vehicle is affected by this recall.
Description of Defect, how it came to light, and possible consequences if ignored.	As part of this constant monitoring, we have found that the potting material of the door-lock microswitch on certain vehicles unfortunately might show an increased susceptibility to moisture absorption. Over time, this might lead to corrosion on the microswitch and subsequently to the failure of the component. Upon such a failure, the microswitch might not detect when the door is opened. The microswitch failure does not affect the operation of the door lock itself. In this case, the parking brake and/or the Auto Park feature connected to the driver door opening might not engage automatically. As a consequence, the vehicle might not be secured against rollaway and the vehicle might move, increasing the risk of a crash.
Remedial Action	As a precautionary measure, we will replace the driver's door lock on the affected vehicles.
