

Accessibility of Government Premises

It is Government's established policy objective to provide a barrier-free environment for persons with disabilities with a view to enabling them to access to premises and make use of the facilities and services therein on an equal basis with others, thereby facilitating them to live independently and fully integrate into the community.

To facilitate Government-wide collaborated efforts in enhancing the accessibility of Government premises and facilities, the Government has established an Access Co-ordinator and Access Officer Scheme. An Access Co-ordinator is responsible for co-ordinating accessibility issues within individual bureau or department, whereas an Access Officer is responsible for, among other things, offering assistance to persons with disabilities in access to the venue under his/her management and using the services and facilities therein, and handling public enquiries and complaints regarding accessibility issues for the venue.

Should you have any enquiries or comments on the accessibility of offices/premises of the Transport Department, please contact our Access Co-ordinator, Deputy Access Co-ordinator and Access Officers as follow –

Access Co-ordinator
