Electronic Driving Licence (eDL) Mobile Application User Guide

1.   Download Application

- **Free downloads** are available from the below mobile application stores starting from 15 September, 2025

- Support Apple (IOS), Android and Harmony operating system

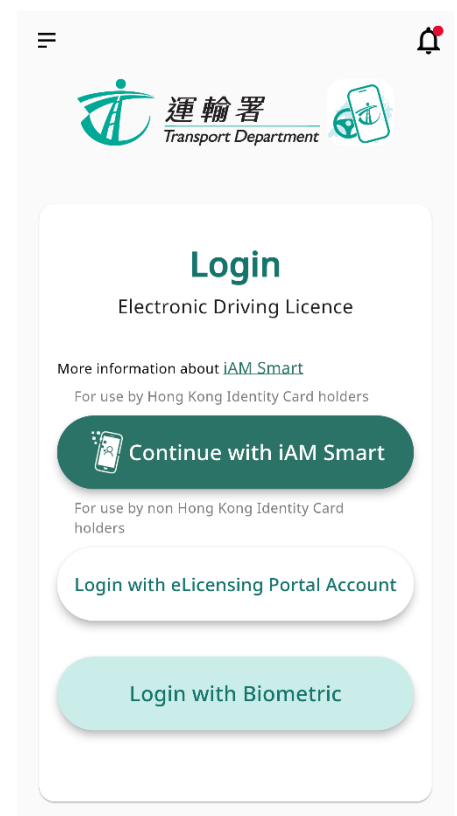

2.   Login Method

i)   Hong Kong Identity Card Holder

ii)   Non-Hong Kong Identity Card Holder (e.g. Passport, Exit-Entry Permit for Travelling to and from Hong Kong and Macao)

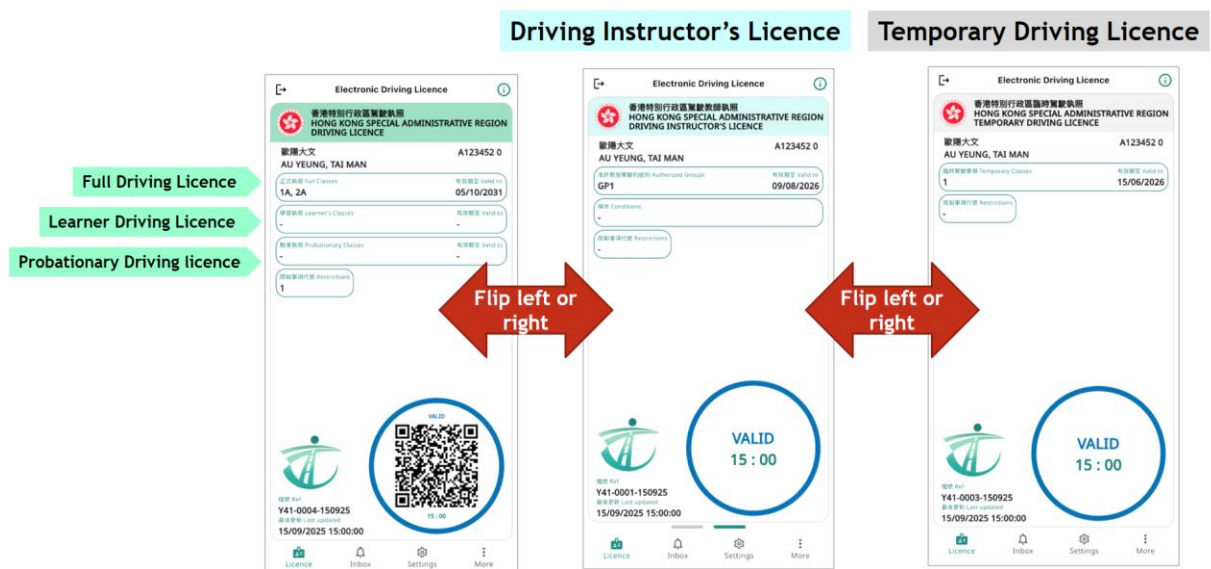

iii)   Biometric authentication can be enabled after first login

3. Display eDL

- Application will automatically show your driving licence (DL) being held

    I. Full Driving Licence (Valid or expired no more than 3 years)

    II. Learner's Driving Licence (Only shows Valid)

    III. Probationary Driving Licence (Valid or expired no more than 3 years)

    IV. Temporary Driving Licence (Only shows Valid)

    V. Driving Instructor's Licence (Valid or expired not more than 3 years)

- Licence Holders must display the eDL via the eDL mobile application on their smart phones in order to fulfil the relevant statutory requirement.

- The status of DL will be indicated in different colour

    I. Blue (Valid)
        - All type(s) of DL being held are valid
    II. Yellow (Partially valid)
        - Simultaneously holding valid DL of certain type(s) and invalid DL of another type(s) (e.g. probationary driving licence is valid, full driving licence is expired)

    III. Red (Expired)
        - All type(s) of DL being held are expired

Valid

Expired

Partially Valid
