Non-HKIC holders (including holders of passports or Exit/Entry Permit for Travelling to and from Hong Kong and Macao, companies or organisations): use a digital certificate or the E-Contact Means registered with Transport Department to register an e-LP account

常見問答
Frequently Asked Questions

1 「牌證易」的資訊會何時更新？
When will the information be updated in e-LP?

一般而言，資料更改需數個工作天處理才會更新到「牌證易」系統。

Normally a few days processing is required for the changed information to be reflected in e-LP after submission of applications.

2 「牌證易」中的牌證資訊能否替代於遞交申請或執法過程中要求遞交/出示的牌證文件?
Can the information of licences/permits in the e-LP substitute the physical form of licences/permits requested during submission of application or law enforcement?

「牌證易」旨在提供一個便捷的平台，讓用戶可以無需依賴實體文件，隨時隨地查閱及管理牌證，以及輕鬆造訪運輸署提供的牌證電子服務。「牌證易」中的牌證資訊**不能替代**於遞交申請或執法過程中要求遞交/出示的牌證文件，預備提交申請時請細閱有關注意事項就所需遞交/出示的文件的說明。

The e-LP serves as a convenient platform for users, without relying on the original documents, to check and manage their licences and permits anytime, anywhere, and to access Transport Department (TD)'s e-licensing services easily. The information of licences/permits in e-LP **CAN NOT SUBSTITUTE** the requirement of producing original form of licences/permits during submission of application or law enforcement. Please read the notes for attention on the requirement of documents to be submitted/produced during submission of applications.

3 「牌證易」和「電子駕駛執照」有何分別？
What is the difference between e-LP and Electronic-Driving Licence (e-DL)?

「牌證易」網上電子牌照平台提供一站式牌證申請及查詢服務，便利市民查閱自己持有的牌證（如駕駛執照）資料。然而，「牌證易」所顯示的駕駛執照資料只供查閱用途，並**不等同於符合**攜帶有效駕駛執照的規定。運輸署正計劃推出載有二維碼的「電子駕駛執照」，讓駕駛執照持有人可於駕駛時自行選擇攜帶實體駕駛執照或「電子駕駛執照」，運輸署會適時作出有關的公布。

E-LP is an online licensing platform that provides one-stop online service for licence/permit applications and enquiries, where members of public can check the information of their licence and permit (e.g. driving licence). Please note that the driving licence information displayed on e-LP is for reference only and **DOES NOT FULFILL** the requirement of carrying a valid driving licence. TD is planning to implement e-Driving Licence (e-DL) with QR code embedded, which will enable holders of the driving licence to choose to carry their physical driving licence or e-DL when driving. TD will announce the relevant information in due course.
